mini nerdle.

Guess the calculation

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 0 |

| + | − | * | / | = | Enter | Delete |

- Each guess is a calculation.
- You can use 0 1 2 3 4 5 6 7 8 9 + - * / or =.
- It must contain one "=".
- It must only have a number to the right of the "=", not another calculation.
- Standard order of operations applies, so calculate * and / before + and -
